

**National Tsing Hua University College of Education**  
**Ph.D. Program in Education Sciences**  
**Graduate Student Thesis Advisor Appointment Application Form**

Name			Student ID		
Program Name	Ph.D. Program in Education Sciences				
Contact Information	Phone/ Mobile: E-mail: Address:				
Proposed Thesis Title (The thesis topic must align with the advisor and College's areas of research)					
Advisor's Signature	Advisor	(Signature) Month/ Day/ Year			
	Co-Advisor	(Signature) Month/ Day/ Year			
Program Director's Signature and Seal					

1. Graduate students must complete the "Thesis Advisor Appointment Application Form" before the end of their first semester and submit it to the institute office after obtaining signatures from the advisor and program director.
2. Advisors should be full-time faculty members at the rank of Associate Professor or above within the institute. If a student wishes to appoint a full-time Assistant Professor as their advisor, the Academic Review Committee must first confirm whether the faculty member meets the qualifications to serve as a doctoral examination committee member under degree conferral regulations.
3. The student's research topic must align with the advisor's and the College's areas of expertise. After discussion between the student and advisor, the topic should be finalized and entered on the application form (including the proposed thesis title), and submitted to the program director for confirmation. If the director finds that the topic is misaligned with the advisor's or the College's areas of research, the form may be returned for revision. If there is disagreement between the advisor and the director, the matter will be referred to the Academic Review Committee for deliberation.
4. If either the student or advisor wishes to terminate the thesis advisory relationship, they must complete the "Academic Review Committee Application Form" and submit it for committee review. Research outcomes produced during the advisory period are jointly owned by the advisor (or project principal investigator) and the participating student. If the student changes advisors, any prior research or results may not be included in the thesis or published in any form without the original advisor's prior consent.

In case of any discrepancy, the Chinese version shall prevail.
